

Vermut

Vermut Stefano Antonucci

"Mediterranean, passionate and unique **STEFANO ANTONUCCI VERMUT**."

This is the new **VERMUT**, created by **Stefano Antonucci** with the perfume expert **Baldo Baldinini**.

This is a project that has immediately seduced the creativity of Baldinini, which gave way to a sartorial project through the selection of spices and botany that are blended in our wines.

Stefano Antonucci's Vermut is the result of years of research and tests to find the most exciting and interesting recipe that could exalt our wines enriching them with sensorial hints. This is what helped create an exclusive product: a Mediterranean Vermouth full of warmth with floral hints.

Besides tasting it straight, even when blended it will help create exclusive drinks... the Mediterranean harmony will win you over.

The lack of coloring and the important care given to the productive process makes Stefano Antonucci's Vermouth an example of Le Marche's quality and uniqueness.
