

Grappa di vinacce di Verdicchio passito

Grappa Lina

The Santa Barbara winery selects pomace made from Verdicchio grapes. In this way was born Lina Grapes which is dedicated to Stefano Antonucci's mother. After soft pressing the juice is then distilled by the classic discontinuous method in small copper boilers thanks to the collaboration with "Distilleria Berta".

To the Eye

Amber colour

To the Nose

The slow distillation, followed by ageing in wood, gives to the grappa an and a resolute

To the Taste

Intense and persistent flavour
