

Gin

## ***Gin Mossi***

Gin Mossi is an artisanal gin, a real Eau de cologne to wear in your mouth. The flavor profile is all to be discovered. In fact, the botanicals that make up the Gin Mossi are not disclosed to the public. The fun and pleasure to understand all the spices and ingredients inside the product are up to you. Its flavor is complex and extremely soft... a muffled oyster shell.

A memory of a sunflower... you can enjoy all the spicy aromas drinking Gin Mossi both neatly and in a cocktail.

Taste it cold... straight or with ice.

In mixology, it is perfect for Gin&Tonic, combined with neutral tonics.

Gin Mossi was born from the inspiration and inventiveness of Stefano Antonucci and from the eclectic sense of smell of the perfumer Baldo Baldinini.

It is the result of the union of several distillates, alcoholates and essential oils of selected raw materials, expertly produced and blended.

The essences and botanicals come from the top-level perfumery market.
